ABOUT ME

I'm a web designer and developer who loves creating user-friendly websites. With a focus on front-end development, I enjoy writing clean, reusable code to keep projects scalable and easy to maintain. Always eager to learn and grow in the industry.

AWARDS

- [CSS REELS Site of the day](#)
- [Design Nominees Site of the day](#)
- [Best CSS Gallery Site of the Day](#)

EXPERIENCES

Frontend Developer (Conversion.com)

Jan 2022 - Present

Responsible for developing UX/UI changes to existing websites in the form of A/B tests, for the purposes of Conversion Rate Optimisation (CRO).

Tools and technology that I use every day here at Conversion:

Languages

- HTML, CSS (SASS), Javascript, TypeScript

A/B Testing Platforms

- Optimizely, Qubit, AB Tasty, Google Optimize, Kameleoon, Adobe Target, VWO

Dev Tools

- VS Code, Tampermonkey, Git CLI, Github

Project Management

- Slack, JIRA, and Asana

Freelance Frontend Developer

April 2019 – Present

As a Frontend Developer since 2019, I've successfully delivered over 120 projects in various domains, including LMS, Event Management, eCommerce, and SaaS products.

Template Developer (contract)

Dec 2020 – 3 Months

Contributed as a Template Developer in a freelance marketplace-based agency, collaborating with a talented team to convert UI templates into scalable frontend code.

Day-to-day work:

- Convert UI templates into scalable frontend code.
- Fix and optimize team members' code.
- Develop reusable components and code snippets for future use.

During my journey, I've partnered with startups and small businesses in India, the UK, Slovakia, Austria, Australia, and Canada, along with working with individual clients. This has enhanced my experience and broadened my skill set.
